ULUG'BEK RAXMATILLAYEV

FRONT END DEVELOPER

I am a dedicated Front-End Developer with a passion for creating responsive and user-friendly web applications. With a solid understanding of HTML, CSS, and JavaScript, I strive to deliver seamless experiences that meet user needs and enhance engagement.

WORK EXPERIENCE

Front End Developer

GEADEZIST Website Project

During my internship, I developed the GEADEZIST website. In this project, I utilized modern web design practices along with technologies like HTML, CSS, and JavaScript. The website was created to provide a user-friendly interface, intuitive navigation, and optimized search capabilities. All elements of the site were adjusted to meet modern standards and were optimized to be SEO-friendly.

IELTS Testy platform

During my independent project, I developed the IELTS Testy platform — a web application focused on practicing IELTS mock tests. The platform allows users to simulate real IELTS test experiences, including Reading, Listening, Writing, and Speaking sections. I implemented interactive components using modern frontend technologies such as React, Tailwind CSS, and Zustand for state management. The application features user-friendly interfaces, dynamic timers, answer validation, and localStorage integration for saving progress. I also focused on responsive design and performance optimization to ensure seamless use across devices.

EXPERTISE

Main Objectives of the Project:

- Creating a user-friendly and intuitive interface
- Structuring the website content properly and optimizing it for search engines
- Ensuring fast performance and adaptability to mobile devices

Through this project, I enhanced my skills in web design and development, successfully creating a website that met the client's requirements.

SKILLS

Technical Skills

HTML	Tailwind Css
Pug	Bootstrap
CSS	Responsive Design
SASS	Basic Web Design
SCSS	Query/Redux
Javascript	Typescript
React JS	Axios
Next js	GraphQl
Vue js	
Solid js	

Soft Skills

- Problem Solving
- Time Management
- Attention to Detail
- Communication
